Investment Considerations

- CPS has weathered two industry cycles to remain one of the few independent public auto finance companies
- Twenty-three consecutive quarters of profitability
- Attractive industry fundamentals with fewer large competitors than last cycle
- Consistent credit performance
- Growing portfolio enhances operating leverage through economies of scale
- Opportunistic, successful acquisitions
- Stable senior management team averaging 20 years of experience owns significant equity
- CPSS currently trading at a discount to book value

Reference to Public Reports

- Any person considering an investment in securities issued by CPS is urged to review the materials filed by CPS with the U.S. Securities and Exchange Commission ("Commission"). Such materials may be found by inquiring of the Commission's EDGAR search page (<http://www.sec.gov/edgar/searchedgar/companysearch.html>) using CPS's ticker symbol, which is "CPSS." Risk factors that should be considered are described in Item 1A, "Risk Factors," of CPS's annual report on Form 10-K, which report is on file with the Commission and available for review at the Commission's website. Such description of risk factors is incorporated herein by reference.

Safe Harbor Statement

- ▶ Information included in the preceding slides is believed to be accurate, but is not necessarily complete. Such information should be reviewed in its appropriate context. The implication that historical trends will continue in the future, or that past performance is indicative of future results, is disclaimed. To the extent that one reading the preceding material nevertheless makes such an inference, such inference would be a forward-looking statement, and would be subject to risks and uncertainties that could cause actual results to vary. Such risks include variable economic conditions, adverse portfolio performance (resulting, for example, from increased defaults by the underlying obligors), volatile wholesale values of collateral underlying CPS assets, reliance on warehouse financing and on the capital markets, fluctuating interest rates, increased competition, regulatory changes, the risk of obligor default inherent in sub-prime financing, and exposure to litigation.
